SKILLS

Preferable problem solving strategy: first come, first solve. It doesn't allow accumulation and offers fast response.

Composure: interests of the company are above personal interests.

Multilingual: fluent Russian, Ukrainian, some Spanish. I'm not shy to learn more. Using different language, if necessary, for communication with client or coworker is the right way to bring new business and positive attitude to a workplace.

Understand the importance of customer service for business.

Punctual. Responsible. Adaptive.
